**Creativity Tool #7- Image Works**

This is using images to randomly stimulate your thinking

o  Select a problem challenge of opportunity

o  Using a laptop or computer, go to an internet browser

o  Instead of doing a web search, do an image search

o  Put in a random word (i.e. green beans, lamp, ocean)

o  Pull up the images for that word, looking at each one

o  Ask the group to answer- what does this remind you of?

o  Type in a different word and then move to the next set of images

o  Solutions will come up in this process
